Raleigh People Excited Over Proposed Bill of Good Government League.

[Special to The Times-Dispatch.]
RALEIGH, N. C., January 18.—The authorities and citizons of Raleigh are naturally the first to get excited about the proposed bill drafted by the Good Government League of Raleigh, and designed to be applicable to all towns in North Carolina having 5,000 or more population, as a charter for the municipal government, the title being "An act to promote more efficient municipal government."

The bill has been completed, but not yet introduced. As drawn, it applies to no particular city, and the provision is for citizens to petition local town authorities for an election on the adoption of this act for that particular town just about as under the Watts act local option elections were held. If adopted by a town the people would only elect four councilmen and the mayor, and they appoint all other officers, the councilmen to receive from \$500 to \$300 salary each, and the mayor \$500 to \$300 salary each, and the mayor absolute control of municipal affairs. The Raleigh Mayor and Aldermen are seeing to it that the members of the Legislature are fully informed as to what they conceive to be fattal flaws in the proposed bill. However, a number of the other cities will likely be heard from after the bill actually gets into the legislative Appointed.

The idea is being advanced by many Democrats that Democracy has no obligation, from a platform standpoint, to support bank guarantee except as a national proposition, and that really there is no obligation for State bank guarantee alone.
